That's the time to be around. There is nothing to equal the sensation of standing off from the new well about 100 yards waiting for the shot to explode.

Away down in the bowele of the earth there occurs a booming rumbling, more felt than heard; then a mass of mad, smoke and steam arisess, followed by a tall ebony column of spouting oil.

there to get it. Imagine yourself watching the preparatory movements of the "Soup Crew,"

Mere words cannot describe the majesty of this spectacle. You just have to be

When The Gusher Gushes?

with a hundred or more shares of stock in your packet. With the spouting of the oil you realize that those bits of paper which you paid about a dollar a share for are now worth many times more.

We are going to shoot at an early date. We have every reason to believe there is oil several hundred feet down. If we have reasoned right, and you are one of us, won't it be a grand and glorious feeling when the oil flows?

Come in and take the chance with us. A few shares more or less will not break you, and when THE GUSHER GUSHES we will all rejoice together.

Is too well known to need any special introduction at this time.
